

RE: K-LOVE Radio and AIR1. KLOVE and AIR1 are the most positive influence this community has by way of radio. The music is not singing about rebellion, divorce, lost love, drink, drugs or a host of other social ills that are boasted about on most stations. With a pastoral staff available they are improving lives on a daily basis which in turn improves our community.

Klove and AIR1 are the only stations my family, including kids, listen to and it would be devastating to have them displaced by another station that offers more of the same garbage that is already out there rather than positive and encouraging music and programming.

KLOVE and AIR1 serve this community by being an uplifting light in the midst of confusion which is the message of most stations. I would strongly encourage you to keep KLOVE strong in Southern Oregon as lives are being positively changed.
